

More Hints from the Model Garage

When you're grinding valves and the vacuum cup on the grinding tool won't grip the valve properly, try this. Place the engine head on edge and grip the valve stems with a large-size tap wrench. Turn the handle back and forth, using only a light pull.

A handy spark-plug wrench can be made from a four-socket wheel-lug wrench. Cut off one of the unneeded sockets and weld on a spark-plug socket in its place. The lug wrench gives good leverage, and the socket is always with you when you need it.

NOW MAKE BATHROOM REPAIRS THAT LAST FOR YEARS

—with an amazing, virtually
indestructible new sealer and glue that's
as easy to use as toothpaste

Amazing new SILASTIC® brand Bathtub Caulk won't crack, chip, shrink, crumble, dry out or wear out—for years! Just squeeze it on and it dries into an elastic seal of silicone rubber. Use it to seal cracks between tub and tile, tub and floor, washbasin and tile. Or use it to glue on towel racks, soap dishes, loose tiles—even glass door-knobs. Every home should have a tube handy. At all hardware and paint supply dealers—U. S. and Canada.

SILASTIC BATHTUB CAULK
from **Dow Corning** . . . the silicones people
