

**Repairing punctures** in tubeless tires in cold weather is hard: The plugs are stiff and difficult to fit. Try this: Bend some wire around the plug and dunk it in hot water for half a minute. This will make the plug more flexible and easier to fit without risk of damage.

**Installing grease fittings** in ball joints, steering gear, and universal joints can be made easier if you press the nipple head into one end of a two-inch-long windshield-wiper hose and put a hex-head bolt in the other. Screw the fitting in, pull the hose off, tighten with a wrench.

**Kodak**  
TRADEMARK

The tray lies flat.  
That's what  
makes it  
dependable  
as gravity.

The KODAK CAROUSEL Projector has a round tray that sits on top—the best set-up for problem-free slide shows.

Gravity (you can depend on it) lowers each slide gently into the projection gate. There's no pushing, no pulling. No jamming, no apologizing to your audience! And each edit-easy tray is a full show—80 slides.

Choose from three models, starting at less than \$80. The KODAK CAROUSEL 600 has easy push-button controls. The 700, push-button plus remote forward and reverse. And the 800 gives you fully automatic slide change, push-button and remote forward and reverse, even remote focusing.

See your Kodak dealer and enjoy cheers all around. *Price subject to change without notice.*
